FULCRUM DIGITAL TRANSFORMS ITS MANAGEMENT REPORTING BY LEVERAGING PERCIPERE'S FINANCIAL PLANNING & ANALYSIS EXPERTISE ON SAP ANALYTICS CLOUD

Solution Spectrum: SAP Analytics Cloud, Process Intelligence, SAP Cloud ERP

Fulcrum Digital is a leading platform and digital solution engineering company uniquely positioned to deliver on the end-to-end process from technology consulting, enterprise application & platform provision, and full-scale implementation.

CUSTOMER SUCCESS STORY FULCRUM DIGITAL GROUP

The professional services company wanted to automate their complex management reporting process. The requirement revolved around integrating the current SAP Cloud ERP system environment with SAP Analytics Cloud for actuals and building the reporting pack in the SAP Analytics Cloud environment with planning forecasting features.

A 52-week rolling forecast was for Fulcrum Digital Group, and the solution we built could handle the weekly changes through its state-of-the-art multiple versions controlling feature.

BUSINESS CHALLENGES

- Inadequate processes to arrive at business vertical profitability with allocated indirect costs where a particular vertical is accessible only to the business owner of a specific vertical through user access
- Uncertainty around the accuracy of data due to a lot of error-prone post-processing on MS Excel spreadsheets
- Unable to get the project profitability reports for measuring the percentage

RESULTS

94%

reduction in Manual errors

80%

savings in Processing Time

73%

reduction in FTEs for analytics & reporting teams in India
