

Job Description

Role: CPI Lead Senior Consultant

About us: Established in 2017 in the UK, Percipere is a fast-growing Premier Process Integrator for ERP and Process re-engineering engagements that works with leading clients in Europe, Americas, Middle East and India. We have ambitious growth targets in APAC market, and this role will play a pivotal role in helping achieve these targets.

Job Location: Mumbai

Role Overview:

We are looking for skilled and dynamic CPI Lead/Senior Consultants with 6-10 years of experience to join our talented team at Percipere Consulting. The CPI Lead/Senior Consultant will play a key role in designing, developing, and implementing SAP Cloud Platform Integration (CPI) solutions, driving successful integration projects for our clients. This role involves both hands-on technical expertise and leadership, with a focus on providing high-quality solutions while ensuring the smooth execution of integration strategies.

Key Responsibilities:

- Lead the design, development, and deployment of SAP Cloud Platform Integration (CPI) solutions, ensuring alignment with client requirements and business processes.
- Collaborate with cross-functional teams to define integration strategies, implement best practices, and deliver effective integration solutions for cloud and hybrid environments.
- Provide guidance and mentoring to junior consultants and developers, helping them grow their skills in CPI-related technologies.
- Participate in client meetings to understand business requirements and translate them into technical integration solutions.
- Optimize and tune SAP CPI solutions for performance, scalability, and reliability.
- Troubleshoot complex integration issues and provide innovative solutions to ensure smooth operations.
- Create and maintain technical documentation, including integration designs, configurations, and implementation procedures.
- Manage project timelines, deliverables, and ensure that integration solutions are completed within agreed-upon deadlines and budgets.
- Stay updated with new features and trends in SAP CPI, sharing knowledge and driving continuous improvements in integration practices.

Skills & Qualifications:

- **Experience:** 6-10 years of hands-on experience with SAP integration solutions, focusing on SAP Cloud Platform Integration (CPI).
- **Technical Expertise:** Solid understanding of integration patterns, APIs, web services (REST, SOAP), and cloud technologies, with hands-on experience in SAP CPI.
- **System Integration:** Experience in implementing and managing integration solutions involving SAP and non-SAP systems, cloud platforms, and on-premise applications.
- **Programming & Scripting:** Strong skills in Java, JavaScript, or similar scripting languages for developing custom integration solutions.
- **Troubleshooting:** Ability to analyze and resolve complex integration issues with a proactive approach to problem-solving.
- **Communication Skills:** Excellent communication and interpersonal skills, capable of conveying complex technical information to both technical and non-technical stakeholders.
- **Project Management:** Experience managing integration projects, including coordinating resources, tracking milestones, and ensuring project delivery.
- **Team Collaboration:** Ability to collaborate effectively with teams, fostering a positive and productive work environment.
- **Certifications:** SAP CPI or relevant integration certifications preferred.

Preferred Qualifications:

- Experience with SAP S/4HANA, SAP PI/PO, or SAP Business Technology Platform (BTP).
- Knowledge of integration with third-party applications like Salesforce, ServiceNow, or other cloud-based services.
- Familiarity with Agile methodologies and project management frameworks.
- Experience in client-facing roles with strong client relationship management skills.
